LIST OF CONTENTS

Vol. 24B, No. 1, February 1990

Julian Benjamin and **Kofi Obeng**	1	The effect of policy and background variables on total factor productivity for public transit
Yasuhiro Hirobata and **Shogo Kawakami**	15	Modeling disaggregate behavioral modal switching models based on intention data
Mark Hansen	27	Airline competition in a hub-dominated environment: An application of noncooperative game theory
P. Marcotte, L. Zubieta, and **O. Drissi-Kaïtouni**	45	Iterative methods for solving an equilibrium problem arising in transit deregulation
Anantaram Balakrishnan, T. William Chien, and **Richard T. Wong**	57	Selecting aircraft routes for long-haul operations: A formulation and solution method
		Short Notes and Research Communications
Sergio R. Jara-Diaz	73	Consumer's surplus and the value of travel time savings
	I	Forthcoming Papers

Vol. 24B, No. 2, April 1990

Konstantinos G. Zografos and **Washington Martinez**	79	Improving the performance of a port system through service demand reallocation
Fred L. Mannering and **Mohammad M. Hamed**	99	Occurrence, frequency, and duration of commuters' work-to-home departure delay
Stef Smulders	111	Control of freeway traffic flow by variable speed signs
Rainer Ansorge	133	What does the entropy condition mean in traffic flow theory?
Henk Meurs	145	Trip generation models with permanent unobserved effects
	I	Forthcoming Papers

Vol. 24B, No. 3, June 1990

Roy I. Peterkofsky and **Carlos F. Daganzo**	159	A branch and bound solution method for the crane scheduling problem

James F. Campbell 173 Locating transportation terminals to serve an expanding demand

A. Alvarez, J. J. Brey, and **J. M. Casado** 193 A simulation model for traffic flow with passing

Dae-Sic Yun 203 Urban residential location and the comparative statics of traffic congestion

R. Arnott, A. de Palma, and **R. Lindsey** 209 Departure time and route choice for the morning commute

Julian Benjamin 229 An analysis of mode choice for shippers in a constrained network with applications to just-in-time inventory

I Forthcoming Papers

Vol. 24B, No. 4, August 1990

Tomonori Sumi, Yoshiji Matsumoto, and **Yasuyuki Miyaki** 247 Departure time and route choice of commuters on mass transit systems

Francesc Robustè, Carlos F. Daganzo, and **Reginald R. Souleyrette II** 263 Implementing vehicle routing models

S. C. Wirasinghe and **S. Bandara** 287 Airport gate position estimation for minimum total costs—Approximate closed form solution

G. Günlük-Senesen and **Ü. Senesen** 299 An analysis of the structure of the Turkish transportation sector in the context of a two-group industry model

Robert F. Bordley 315 The dogit model is applicable even without perfectly captive buyers

I Forthcoming Papers

Vol. 24B, No. 5, October 1990

George F. List 325 Toward optimal sketch-level transit service plans

James F. Campbell 345 Freight consolidation and routing with transportation economies of scale

S. Erlander 363 Efficient population behavior and the simultaneous choices of origins, destinations and routes

C. S. Fisk 375 Traffic assignment and the lane choice problem

C. S. Fisk 391 Effects of heavy traffic on network congestion

405 Erratum

I Forthcoming Papers

Vol. 24B, No. 6, December 1990

Nathan H. Gartner and **Gennaro Improta**	407	Editorial
M. J. Smith and **M. Ghali**	409	The dynamics of traffic assignment and traffic control: A theoretical study
Donald W. Hearn and **Siriphong Lawphongpanich**	423	A dual ascent algorithm for traffic assignment problems
Byung-Wook Wie, **Terry L. Friesz** and **Roger L. Tobin**	431	Dynamic user optimal traffic assignment on congested multidestination networks
James K. Ho	443	Solving the dynamic traffic assignment problem on a hypercube multicomputer
Petros C. Vythoulkas	453	A dynamic stochastic assignment model for the analysis of general networks
Markos Papageorgiou	471	Dynamic modeling, assignment, and route guidance in traffic networks
	I	Forthcoming Papers
	III	Volume 24 Contents and Author Index
